1.3 GAPPED TEXTS

■ Whole text for the teacher

The Science Museum is in High Park, in Fun. It's quite expensive: the ticket is £15. But it is really superb. The museum is in a very old and big building. It's yellow and brown and very tall. There are 10 floors and 42 rooms. This museum is very interesting, because there are many animals shown there. They are all exciting and you can learn about their lives. There are many live animals there as well, just like in a zoo. There is a little restaurant, where you can eat fish burgers, chicken salad and drink lots of exotic juices. There is a shop, too. You can buy postcards and animal posters and different T-shirts with animals on them. It's open every day from 10am till 6pm.

The National Theatre is situated on the Main Square of the town of Fun. This is the oldest building in the town; it is 190 years old. It's light green and there are many small statues on the outside. Inside there are 1120 paintings and drawings on the walls. There are 560 steps inside and 3400 light bulbs. There is one bar in the theatre, which is very expensive. You can buy a bottle of mineral water for £3, which is around 1200 Forints. There are special sandwiches there, with ham, French cheese, octopus and caviar. There are 200 different presentations every year, for example dance shows, comedies, drama, children's plays and concerts. Everyone in the town is happy to go there for shows.

The University of Fun is the most important university of the country. It's 300 years old. It's got 15 buildings in the town and 340 teachers work there. There are 4000 students studying there. You can study Science, English, French, Spanish, History and also Literature there. The students are very happy going to this university, because they can do many sports and art activities in their free time. They can swim, skate and do yoga, play football, rugby, hockey and basketball. The university has 14 sport teams and 4 art groups.

Bloom Park is not very big, but it's beautiful. It is on the North side of the town. There are 200 different types of flowers there. There are yellow, green, blue and red flowers and many trees. There is a pine tree which is 30m tall. It's really old, around 60 years old. Children go there in December and decorate it as a Christmas tree. The park is also a playground for children. There are many great toys there and also a mini on football field. Families go there at the weekend to relax and have picnics.

Dear _____

My name is Dylan Smith and I am the producer of the TV show called the World's Best Places. In our show we choose one place/building/park, etc. every year that we help make better. Last year we changed Bloom Park in the city of Fun.

This year we are coming to your neighbourhood and YOU can choose which place we should change. First of all, we would like you to tell us something about famous/popular places and tell us what problems there are.

There will be a TV show at the end where YOU WILL DECIDE which place should be changed.

We hope you will enjoy the show just as much as we do and we will make your place more beautiful together!

Good luck and best wishes,
Dylan Smith and the crew of World's Best Places
