In one of the pictures you can see children drawing, while in the other they are playing computer games. Compare and contrast the two pictures. There are some questions to help you. (In the exam these questions are asked by the examiner when you have finished talking.)

1. How has spending one's freetime changed in the last fifty years for children?
2. What are some typical activities/games for young children nowadays?
3. What are the advantages and disadvantages of modern technology when used by young children?
4. At what age should children first get to know computers?
5. Do you think drawing is a talent or a skill that can be developed?

If you can, try to use some of these expressions while talking:

- spend time playing computer games or watching TV
- become socially isolated
- ... has a great influence on children's development
- have Internet access at home
- rules about computer/TV use
- the easiest way to entertain oneself is ...
- stare glassy-eyed at something
- engage in creative activities
- there is less freetime outside of school
- the advantages of ...-ing are ..., however, there are also disadvantages
